	<p><b>A CMM &amp; IHK Chemnitz Side Event at MMEC 2025 for Investors, Technology Suppliers, Market Observers and Active Players in Mining.</b></p> <p>Mozambique is rich in mineral resources and holds significant potential to contribute not only to its own sustainable development but also to regional and global supply chains. With the increasing international demand for strategic or critical raw materials, the Mozambican mining sector is at a decisive crossroads. As Mozambique's mining sector enters a new phase of global relevance, the need for responsible growth, sustainability, and strategic positioning has never been greater.</p> <p>This high-level side event from Chamber of Mines of Mozambique (CMM) at MMEC 2025 gathers key voices from specialists to explore how ESG principles can serve as a competitive advantage and driver of innovation for the country's mineral resource sector.</p> <p>The purpose of this side event, jointly organized by the Chamber of Mines of Mozambique (CMM) in cooperation with AMETRADE, is to spotlight Mozambique's potential as a reliable and sustainable supplier of strategic minerals to global markets, including Europe. Through expert insights, real-world best practices, and interactive dialogue, CMM Members and Partners aim to showcase how environmental, social, and governance (ESG) practices are shaping a more competitive, inclusive, and future-proof mining industry in Mozambique.</p> <p><b><u>Join us to engage, network, and shape the next chapter of Mozambique's mining story.</u></b></p>
